# Solar Testing

**SOLAR TESTING**

LabTest Certifications Inc., an independent Certification Body (CB) authorized with multiple accreditations, is accredited by the Solar Rating and Certification Corporation (**SRCC**) to test solar collectors for SRCC certification. LabTest's facility offers the solar energy industry the advantage of local accessibility, in addition to fast, accurate and cost-efficient SRCC certification based on safety, design, and performance criteria.

## How LabTest Can Help

LabTest's program evaluates solar collectors according to SRCC, ASHRAE and ISO standards used for swimming pool and recreational heating, space heating, cooling, and water heating, amongst others, providing a means for evaluating the maintainability of solar collectors as well as calculating thermal performance ratings under prescribed conditions.

**FAST TURNAROUND TIMES!**

**SRCC** Certification provides:

> One-Time Certification
> National Recognition
> Product Credibility
> Standardized Comparisons of Solar Energy Products

Also accredited by the Standards Council of Canada (**SCC**) to test and certify a wide variety of products including gas, electrical and plumbing devices, LabTest has established an excellent track record for fast, cost-effective and accurate results in a business where attention to detail is critical and cost is always a concern. For organizations with global markets and/or multiple product categories, LabTest offers you a "One-stop-Solution" for both domestic and internationl markets.
