Subject: SCC's Scope Extension Approval: Respiratory Protective Devices

Dear Kavinder Dhillon,

It is my pleasure to confirm your scope approval within the Product, Process and Service Certification Body Accreditation Program (CBAP) of the Standards Council of Canada (SCC). This decision is based on our remote office assessment from 2020-11-09 to 2020-11-11, your responses to the subsequent required actions, the completion of our affirming review process and final approval by SCC.

As a result of this decision, your Scope of Accreditation has been re-published on SCC's website to include ICS 13.340.30 - Respiratory Protective Devices.

Please note that it is the responsibility of your organization to advise SCC of any changes that may affect compliance with the criteria and requirements for accreditation as per the Accreditation Agreement.

Thank you for the opportunity to provide our services to you and I trust that you will continue to benefit from participation in SCC's CBAP program. I look forward to our continued working relationship.

Sincerely,

Cynthia Milito, pp Elias Rafoul, Vice-President
Accreditation Services

cc: Patricia Chartrand, Account Manager
