

# HAZLOC TRAINING

LabTest Certification caters HazLoc training sessions to your specific needs!

Our Hazardous Locations team comes with 100+ years of collective compliance experience. Our Haz-Loc members participate in Ex Technical committees, for example TC 31, USNC/IECEX, and ICHL.

As an accredited Testing Laboratory, Certification Body, and Inspection Agency, LabTest provides training on standards, as they apply to your products, as well as training for your R&D, Production, Compliance, and Quality Control staff, in relation to protection methodologies and product launch for global markets for your Hazardous Locations (Ex) Equipment.

## What does the training include?

- ✓ Pre-training meeting with LC Trainer to develop and review training plan
- ✓ Training session: one-on-one or group training
- ✓ Certificate of Completion

To register for training please visit our page  
[labtestcert.com/hazloc-training/](http://labtestcert.com/hazloc-training/)

## How does it work?

- 1 Register for training
- 2 Sales department connects with applicant to review request
- 3 Trainer schedules a pre-training meeting to prepare a training plan, based on client individual needs
- 4 Training session
- 5 Certificate of completion at end of training for each participating individual
